

Top Boost Tone. Drop Dead Gorgeous.

AC4C1-BL

Outfitted in historic 1963 blue vinyl, Tygon fret cloth and a retro Bakelite handle, the all-tube AC4C1-BL is overflowing with personality. This little beauty delivers 4 watts of thick Class A tone through its 10" Celestion speaker, allowing you to dial in massive crunch or the clean, classic "chime," that is the very essence of VOX's Top Boost identity.

AC4HW1 - Hand-Wired Series

The brand new AC4HW1 sounds every bit as stunning as it looks.

The all-tube circuitry includes a HOT/COOL switch offering either the coveted VOX Top Boost tone, or a pure and rich gain that bypasses the tone circuit completely. Four perfectly formed watts of Class A power are delivered through a 12" Celestion G12M Greenback speaker.

VOX AC4. Put a legend in your living room.
